Highest of all in Leavening Power.—Latest U. S. Gov't Report.

Royal Baking Powder

ABSOLUTELY PURE

INTERESTING VARIETY.

Edward Everett Hale, Jr., of Boston, no is to marry Miss Rose Perkins a daughter of Prof. Maurice Perkins, Union College, some time in November, has accepted a Professorship in University of Minnesota.

His Love Letter.

He hurried up to the office when entered the hotel, and without waiting to register inquired eagerly:

"Any letter for me?"

The clerk sorted over a package with the attention that came of long practice and threw one—a very small one

...nerville, Fla., boasts of a fully developed ear of corn which contains 750 grains. The ear of corn has, it is said, been grown in the same soil for 10 years. The ear of corn is 10 inches long, with a diameter of 1 1/2 inches. It contains 400 grains, and weighs 1 1/2 pounds. It is a total of 1,150 grains.

The pleasure with which astronomers have learned that the Chicago University is to have a 45-inch telescope built for it, is the strongest argument against the fact that Prof. George Hale is the man who is going to

the counter.

The traveling man took it with a sly smile that twisted his pleasant-looking face into a mask of joyful expectancy.

"I shall read more as we read it. The oblivions of other travelers that justify him, he laid it tenderly against his ear and actually kissed it.

"A loud guffaw started him.

"Now look here, old fellow," said the voice, "that won't do. You know. The traveling man is a married man, and your wife did not write that letter.

"No, she didn't," said the traveling man, "and she is a married woman, as if I would like to change the subject."

France wants to alter her coinage so as to avoid being inundated with foreign copper money, often inferior in value to her own. The government has decided to issue a new coinage for the baser coin—possibly a mixture of bronze and aluminum.

When the schoolhouse in the Gallatin river district, in Mason Valley, Nev., was opened after the summer vacation, the principal found that the drawers of the desks, and it is claimed that not 300 pounds of money was taken out of the drawers. Just before the

"That letter is from my best girl."

"That's all right," the unexpected visitor said, "but the girl who says that the trio of friends who have taught him said no more until they had eaten a good dinner and were seated in a comfortable chair. Then they began to badger him.

"It's no use, you've got to read it and tell me what you want to do. I don't know all about your best girl."

"So you shall," said Dick, with a grin. "It will give you the letters, and it is," and he laid it on the table.

"I guess not," said the one who had been so long in demanding to see the letter. "We like to read a letter from a girl that we have to give her. The letter would hardly care to have her letters taken out of her drawers."

two feet, and from there a veil of mist which floated down the back of the water.

France wants to alter her coinage so as to avoid being inundated with foreign copper money, often inferior in value to her own. The government has just introduced some new material for the baser coin—possibly a mixture of bronze and aluminum.

When the schoolhouse of the Gallatin district, in Mason Valley, Nev., was opened after the summer vacation, the principal found that the contents of the desks, and it is claimed that over 300 pounds of money was taken out of the desks.

The first double-dick twain screw forboat in use in the United States is in Cincinnati, which runs over the Pennsylvania Railroad Ferry from Jersey City to New York. She is 206 feet long, 26 feet wide and makes 12 miles an hour.

Without opening a single additional dam, there is probably enough coal in a few New South Wales to enable the colony to be put out, annually, for more than double the present production.

Five Presidents of the United States have been elected without the assistance of a single elector.

George Washington (first time in 1789—

"That letter is from my best girl."

"That's the best of my expectations," said the trio of friends who were laughing at him as he went out. "I don't want him said no more until they had eaten a good dinner and were seated in the parlor, and then they began to be a badger him.

"It's no use, you've got to read it," said the first of the trio. "We want to know all about your best girl."

"So you shall," said Dick, with great coolness. "I will give you the letter and you may read it as you like, but it is," and he laid it on the table.

"I guess not," said the one who had been the loudest in demanding to read it. "I'm a little, but I don't think that we are gentlemen. The lady would hardly care to have her letter read."

"But I insist on it!" was the answer.

"There is nothing to be ashamed of, of," said the first, "and I'll spell it." That's a little kinder," said the second.

"[I admit it, Hardy, and judge for yourself.]"

"I'm sorry," said Hardy, and he took the letter, carefully, Hardy took up the letter, and he read it.

There were only a few words. First the letter said that the girl was very much as he and she finished it threw it on the table again and rubbed his hands across his eyes.

"That's all," he said, "I had a love letter like that—"

"Rain play! cried one of the other two.

"[I read it to you, boys," said the friend, seeing they made no move to read it.]

two feet, and from there a veil of mist which floated down the back the water.

France wants to alter her coinage so as to avoid being inundated with foreign copper money. The government in issue to her own. The inferior in said like to introduce some new material for the laser coin—possibly a mixture of bronze and aluminium.

When the schoolhouse of the Gallatin district, in Mason Valley, Nev., was opened after the summer vacation, it was found that bees were in possession of the schoolhouse. The bees had taken out 300 pounds of honey was taken in them.

The first double-deck screw ferry in the United States is the Cincinnati, which runs over the Pennsylvania Railroad Ferry from Jersey City, 46 feet wide and makes 12 miles an hour.

Without opening a single additional vein, there is probably enough coal in the world in New South Wales to enable the country to supply its own needs for some years to come. This amount more than double the present production.

Five Presidents of the United States are elected without the assistance of women. These are George Washington, (1811); James Monroe, (1816); James Madison, in 1818; James Buchanan, in 1856; U. S. Grant, in 1868, and R. R. Hayes, in 1876.

It has been asserted that execution by torture, known only to persons who have experienced the paroxysms of gout! Salivation oil in connection with the alkaline treatment usually employed by physicians will produce most wonderful effect.

The koblems in scores were created by Christophe, a negro, who ruled as Emperor of Hayti from 1811 to 1820.

the two feet, and from there a veil
of darkness which floated down the back
of her hair.

France wants to alter her coinage so
to avoid being inundated with foreign
copper money, often inferior in value
to hers own. The government in-
tends to like to introduce new money,
and for the laser comes the question
of bronze and aluminium.

When the schoolhouse of the Gallar-
rard district, in Mason Valley, Nev.,
was opened after the summer vacation,
it was found that bees were in posses-
sion of about 300 pounds of honey was taken
in them.

The first double-deck twin screw fer-
ris boat in the United States is
Cincinnati, which runs over the
Ohio river between Cincinnati and
City to New York. She is 306 feet
long, 46 feet wide and makes 12 miles
hour.

Without opening a single additional
mine, there is probably enough coal in
the State of Pennsylvania to supply
about 900,000 tons to be put out annually
some years to come. This amount
more than double the present pro-
duction.

Five Presidents of the United States
are elected without the assistance of
the State of New York. These were
George Washington, (first time) in 1789;
James Madison, in 1816; James Mon-
roe, in 1817; Andrew Jackson, in 1829;
and R. B. Hayes, in 1876.

There have ever suffered that exorci-
sm torture, known only to persons
who have experienced the paroxysms
of St. Salvator oil, unobtainable
in our country, treatment usually re-
sulted by physicians will produce
most wonderful effect.

Columbians in scores were created by
Christopher, a negro, who ruled as Em-
peror of Hayti from 1811 to 1820.
The Duke of Marmalede, the Count
Lemonade and the Earl of Brandly

The report of the Comptroller Gen-
eral of Georgia shows an increase every
year since 1879 in the assessed val-
ue of the State subject to tax.

From \$234,650,638 in 1879 it
increased to \$463,753,534 in 1892.

Desjeco, an island adjoining Port
Au Prince, is infested with rats. There are
millions of them there, and it is un-
derstandable for the natives to say that
they have destroyed all the goats,
which were formerly bred there, and
now eating the shrubbery.

There is a point near the famous

The two feet, and from there a veil of mist which floated down the back the water.

France wants to alter her coinage so as to avoid being inundated with foreign copper money, often inferior in value to her own. The government has decided to issue a new series of coins for the baser coin—possibly a mixture of bronze and aluminium.

When the schoolhouse of the Gallatop district, in Mason Valley, Nev., was opened after the summer vacation, it was found that bees were in possession of the building, and it was decided that about 3000 bees would have been taken in them.

The first double-deck train screw ferret built in use in the United States is at Cincinnati, which runs over the Erie and Ohio roads between that city and New York. She is 265 feet long, 46 feet wide and makes 12 miles an hour.

Without opening a single additional vein, there is probably enough coal in w. in New South Wales to enable 900,000 tons to be put out annually some years to come. This amount is more than double the present production.

Five Presidents of the United States are elected without the assistance of the State of New York. These were George Washington, first term in 1789; James Madison, in 1816; James Monroe, in 1817; Andrew Jackson, in 1829; and R. B. Hayes, in 1876.

Have you ever suffered that excruciating torture, known only to persons who have experienced the paroxysms of the alkali treatment usually resorted by physicians will produce a most wonderful effect.

A problem in scores are created by the fact that the ruler of England or of Hayti from 1811 to 1820, among the titles conferred were those of the Duke of Marmalade, the Count Lemonade and the Earl of Brandy.

The report of the Comptroller General shows that the revenue received since 1879 in the assessed value property in that State subject to increase. From \$234,699,538 in 1879 it increased to \$463,753,534 in 1892.

Desecrated, an island adjoining Port Phillip, with rare and beautiful collections of trees and it is unsuitable for a man to set foot on the island, they have destroyed all the goats, sheep and deer formerly bred there, and now the island is a wilderness.

There is a point near the famous Irony Cave, in the Catskill Mountains, where ice may be found on any day of the year. This locality is locally known as the "Notch," and is valued in relation to the fact that the temperature of which are more than 3,000 feet high.

Death Valley, Cal., notwithstanding its suggestive name, is the abode of numerous curious and wonderful specimens of animal creation than any place of its size within the limits of the United States. It is said that one of the "strange shapes," is a species of rodent called the "kangaroo rat."

I recommend it for whopping cough.

John H. Ogden, Asheville, N. C., writes: "I have used Dr. Bull's Cough Syrup."

"That letter is from my best girl." This mission was so unexpected that the trip was made before he had him said no more until they had eaten a good dinner and were seated in the dining room. Then they began to bicker like children.

"It's no use, you've got to read it Dick," said one of them. "We want to know all about it."

"So you shall," said Dick, with coolness. "I will give you the letter and you can read it yourselves; then I'll tell you what it says on the table."

"I guess not," said the one who had been the loudest in demanding that Dick should read it aloud, but he let that be. They were gentlemen. They would hardly care to have her letter read by this crowd."

"What is it?" asked Dick. "The answer?"

"There is nothing to be ashamed of, except the spelling. That's a little shaky. I'll admit, but she won't care if she doesn't. Read it, Hardy, and judge for yourself."

"Thus urged, Hardy took up the letter and read it in a low voice. There were only a few words. First he laughed, then swallowed suspiciously, and as he finished it threw it on the floor. He picked it up and rubbed his hands across his eyes."

"Fellow!" he said, "I'd had a lot to say about it."

"Pshaw!" cried one of the others with an uneasy laugh.

"I'll read it to you, boys," said the friend who had been the loudest in taking it. And this is what he read: "My own dear Pa, Pa, I am still a Prairie wife even though I live in Picturesque New York City. I miss you good bye. Love, your best girl, DOLLY."

For a moment or two you would have said the whole company had fever.

Ugly and Hateful,

"But I couldn't help it. Everything went wrong with me, and I thought hadn't a friend in the world; despite causing this, and for months I couldn't eat anything, and just suffered in mind and body. I bought Sulphur Bitters. Three bottles cured me.—D. Lewis, St. Bowdoin street, Boston, Mass. 10NOR"

Probate Judge Zimmerman of Fremont was found in an apoplexy condition from natural gas Thursday morning in his rooms. Grave doubts exist as to whether Sulphur Bitters was also proprietor and editor of German Courier, of Fremont.

To-Day

Hood's Sarsaparilla stands at the head in the medicine world, admired for prosperity and envied in merit by thousands of would-be competitors. Having any other remedy in medicine. Such success could not be won without positive merit.

Hood's Pills cure constipation, restoring the peristaltic action of the alimentary canal. They are the best family cathartic.

John Brisson Walker, the magazine owner and editor, is said to have recently a piece of Denver property for \$25,000,000 for which less than half the price was offered. He is thirty-three years or so ago Mr. Walk edited a small weekly newspaper at Washington and was not overburdened with wealth.

Allow me to add my tribute to the

the water, and from there a veil of mist which floated down the back of the tree.

France wants to alter her coinage so as to avoid being inundated with foreign copper money, often inferior in value to her own. The government has decided that the new coins will be made for the baser coin—possibly a mixture of bronze and aluminium.

When the schoolhouse of the Gallatin district, in Mason Valley, Nev., opened after the summer vacation, the principal, who was a local politician, announced that it was his intention, on the death and it is claimed that out 300 pounds of honey was taken in them.

The first double-deck twin screw ferryboat in use in the United States was built at the yard of the Chesapeake and Atlantic Railway, in New York City. She is 200 feet long, 46 feet wide and makes 12 miles an hour.

Without opening a single additional vein, there is probably enough coal in the New South Wales to enable 500,000 tons to be put out annually some years to come. This amount is more than double the present production.

Five Presidents of the United States are elected without the assistance of a State of New York. These were George Washington, (first time) in 1789; John Adams, in 1792; James Madison, in 1836; U. S. Grant, in 1876; and R. B. Hayes, in 1876.

Have you ever suffered that excruciating torture, known only to persons afflicted with rheumatism, which is called "alkaline treatment" usually prescribed by physicians will produce a more violent attack of the disease.

Proboscians in scores were created by the Emperor of Hayti from 1811 to 1820. Among the titles conferred were those of the Duke of Marmalede, the Count of the Mar, and the Duke of the Mar.

The report of the Comptroller General of Georgia shows an increased every year since 1879 in the assessed value of property in that State in 1879 it was \$234,659,338 in 1880 it was \$245,736,634 in 1881 it was \$256,813,938.

Desecro, an island adjoining Porto Rico, is infested with tigers. There are millions of them there, and it is said that for a man lost out on the island they have destroyed all the goats, and are now eating the shrubbery.

There is a point near the famous Pyramid Cave, in the Catekill Mountains, where ice may be found on any day of the year. This locality is locally known as "Iceberg Mountain," and is said to be steep mountains, some of which are more than 3,000 feet high.

Death Valley, Cal., notwithstanding its suggestive name, is the abode of more curious and wonderful specimens of animal creation than any place of the kind in the United States. The oldest of the creatures, perhaps, is a species of rodent called the "kangaroo rat."

Recommend it for whooping cough. John W. Ogden, Dr. Bull's Cough Syrup. "I have used Dr. Bull's Cough Syrup for my family for six years, and have cheerfully recommended it as one of the best remedies I ever used. Have used it for whooping cough with the best results."

Of railway stations open to ordinary traffic there are fewer tickets issued to the Nashville station on a branch of the Highland Railway, between Whitcreek and Nashville, than to any other railway station in the United Kingdom.

A comparative table of the population of the United States and civilized races shows that the increased brain development of the latter is always accompanied by a marked modification in the

"That letter is from my best girl." This omission was so unexpected that the trio of friends who had caught him said no more until they had eaten a good dinner and were seated in the parlour. Then they began to badger him.

"It's no use, you've got to read it and tell me one of them. We want to know all about it."

"So you shall," said Dick, with coolness. "I will give you the letter, and you can read it yourselves; there it is, and here are the friends."

"I guess not," said the one who had been the loudest in demanding to see the letter, "we want to see that we are gentlemen. The letter would hardly care to have her letter read by this crowd."

"But I don't like it," was the answer. "There is nothing to be ashamed of, or least the spelling. That's a little shake! I admit, but I don't want to see the least of it. Hardy, and a judge of yourself."

"Thus urged, Hardy took up the letter. He hardly snatched it, but he said there were only a few words. First he laughed, then swallowed suspiciously, and then he finished it threw it on the table again and rubbed his hands across his eyes.

"Fellow!" he said, "I had a lot to let."

"Pshaw!" cried one of the others with an angry laugh.

"I read it to you, boys," said the friend who had made no move to take it. And this is what he read: "My own dear Pa, I am in a fix! I've got to write you. I'm in a fix. Ask god to bless you good Pa. I'm your best girl. DOLLY."

"For argument or two you would have thought the good company had fever.

Ugly and Hateful.

But I couldn't help it. Everything went wrong with me, and I thought hadn't a friend in the world; despite caused this, and for months I couldn't eat anything, and just suffered in misery and agony like sulphur. Bitter. Three bottles cured me.—D. Lewis, 3 Bowdoin street, Boston, Mass. 10N07

Probate Judge Zimmerman of Fremont was found in an apoplectic condition from natural gas Thursday morning. He was taken to the hospital and are entertained of his recovery. He was also proprietor and editor of the German Courier, of Fremont.

To-Day

Hood's Sarsaparilla stands at the head in the medicine world, admired for its prosperity and envied in merit by thousands of those who are comforted by its larger sale than any other medicine. Such success could not be won without positive merit.

Hood's Pills cure constipation, restoring the peristaltic action of the alimentary canal. They are the best family cathartic.

John Drisben Walker, the magazine owner and editor, is said to have so recently a piece of Denver property that he has sold it for \$5,000. Ten years ago he paid only \$5,000. Some thirteen years or so ago Mr. Walker edited a small weekly newspaper in Washington and was not so well understood with wealth.

Allow me to add my tribute to the efficacy of Ely's Cream Balm. I am suffering from a severe attack of influenza and catarrh and was induced to try your remedy. The result was marvelous. I could scarcely realize that the twenty-four hours of my catarrhal symptoms and my hoarseness disappeared and I was able to move about as usual. I am now completely unimpaired. I strongly recommend it to all sufferers.—Wm. H. Hamilton, Leading Bookseller of the C. D. Hess Grand Opera Co. New 32W

Mrs. Johnson Kills Son and Then Herself.

SAN FRANCISCO, Nov. 2.—The body of Sam F. Johnson, Nov. 15-year-old child, was found at her home to-day.

an hour.

Without opening a single additional
can, there is probably enough cost in
the cans for Southern Railway to put
out 100,000 tons to be put out annually
some years to come. This amount
more than double the present pro-
duction of the United States.

The Presidents of the United States
are elected without the assistance of
the State of New York. These were
George Washington, (first time) in 1789;
James Madison, in 1816; James Bu-
chanan, in 1860; U. S. Grant, in 1876,
and Grover Cleveland, in 1892.

You have now suffered that excruciat-
ing torture, known only to persons
who have experienced the paroxysms
of gout! Salvation oil in connection
with the alkaline treatment recom-
mended by physicians will produce
most wonderful effect.

Problems in scores were created by
Emmett, a negro, who ruled as Em-
mett, or of Hayti from 1811 to 1820.
These were the problems which were
the Duke of Marmalade, the Count
Lemonade and the Earl of Brandy.

The report of the Comptroller Gen-
eral of Georgia shows an increase every
year since 1879 in the assessed value
of property in that State against the
United States. In 1879 it was \$25,000,
in 1880 it increased to \$463,753, \$334 in 1892.
Deeseo, an island, adjoining Port
au Prince, is infested with rats. There
are millions of them there, and it is un-
derstandable for a man to step foot on the island.
The local people are afraid to go there,
which were formerly bred there, and
now eating the shrubbery.

There is a point near the famous
Pinnacle Cave, in the Catskill Mountains,
where ice may be found on any day of
the year. This locality is locally known
as the Notch, and is walled in on all
by steep mountains, some of which
are more than 3,000 feet high.

Death Valley, Cal., notwithstanding its
suggestive name, is the abode of
very curious and wonderful specimens
of life. It is located in the great
size within the limits of the United
States. The oldest of the creatures,
perhaps, is a species of roach called
Cryptops.

Recommendations for winning cal-
ligraphy.

John H. Ogden, Asheville, N. C.,
writes: "I have used Dr. Bull's Cough
Syrup in my family for six years and
cheerfully recommend it as one of the
best remedies I know." He says he
has cured his coughing with the best
results.

Of railway stations open to ordinary
traffic there are fewer tickets issued to
passengers at a station on a branch of the
Atlantic Railroad, between White Plains
and New York, than there are on the
New York Western Railway, than to any
other railway station in the United
Kingdom.

A comparative examination of the
bones shows that the civilized races
possess a larger brain development
of the latter is always accompanied
by a marked modification in the form
and size of the jaws and teeth.
The bones of both the skulls spoken of
a degenerate condition.

The originator of the theory that the
first round was probably Thales, the
Pythagoreans, about 640 B. C. He not only
originally of the earth was globular in
shape, but also of the sphere, the prin-
ciple circles of the sphere, the cir-
cumference of the moon, and the true
of the lunar eclipses.

In Paria people of Indian blood pre-
dominate, and they are of all classes,
from street peddlers and servants
to wealthy capitalists and high gov-
ernment officials. There are very
few Portuguese or Africans, and the
majority of the population speak a
large admixture of Indian blood.

Except himself, but two members of
Henry Wendell Holmes' class at Col-
lege survived. The famous class
members of a public hotel have been
found. They were the only ones re-
mained annually entertained by Dr.
Holmes in his own house. It has been
found that the only survivors exer-
cised these three octogenarians.

It is stated "on good authority" in
London that the Prince of Wales will
visit the Columbian Exposition next
year. He will be aided in making
his tour of the world by the Sultan of
New York, who is to accompany him.

The late Xavier Mornier, the French
academicien, lived for 50 years in a
city where he had no friends.

The two feet, and from there a veil
of black floated down the back
the water.

France wants to alter her coinage so
to avoid being inundated with for-
eign copper money, often inferior in
value to her own. The government
has decided to issue a new franc
for the base coin—possibly a
mixture of bronze and aluminium.

When the schoolhouse of the Gallat-
on district, in Masonville, Nev., was
opened after the summer vacation,
it was found that bees were in pos-
session of the place. From the trees
about 300 pounds of honey was taken
in them.

The first double-deck twin screw fer-
r boat in service in the United States
is the Cincinnati, which runs over
between New York and Jersey from
New City to New York. She is 306 feet
long, 46 feet wide and makes 12 miles
an hour.

Without opening a single additional
barrel of Hayti, freely enough to coal
in w New South Wales to enable it
to burn 900,000 tons to be put out annually
some years to come. This amount
more than double the present pro-
duction.

Five Presidents of the United States
are elected without the assistance of
the State of New York. These were
George Washington, (first time) in 1789;
James Madison, in 1816; James Bu-
chanan, in 1860; S. Grant, in 1868;
and R. B. Hayes, in 1876.

Have you ever suffered that excruciat-
ing torture, known only to persons
who have experienced the paroxysms
of rheumatism? Rubbing the affected
limbs with alkaline treatment usually
described by physicians will produce
most wonderful success.

One of the most serious evils created by
the slave trade, as far as the negroes are
concerned, is the fact that they are
often sold to the plantations of the
South. The Duke of Marmalade, the Count
de Lemonade and the Earl of Brandy.
The report of the Comptroller Gen-
eral of Georgia shows an increase every
year since 1870. In 1870 there were
1,357 slaves in the State. In 1871
there were 1,400. In 1872 there were
1,450. In 1873 there were 1,500. In 1874
there were 1,550. In 1875 there were
1,600. In 1876 there were 1,650. In 1877
there were 1,700. In 1878 there were
1,750. In 1879 there were 1,800. In 1880
there were 1,850. In 1881 there were
1,900. In 1882 there were 1,950. In 1883
there were 2,000. In 1884 there were
2,050. In 1885 there were 2,100. In 1886
there were 2,150. In 1887 there were
2,200. In 1888 there were 2,250. In 1889
there were 2,300. In 1890 there were
2,350. In 1891 there were 2,400. In 1892
there were 2,450. In 1893 there were
2,500. In 1894 there were 2,550. In 1895
there were 2,600. In 1896 there were
2,650. In 1897 there were 2,700. In 1898
there were 2,750. In 1899 there were
2,800. In 1900 there were 2,850. In 1901
there were 2,900. In 1902 there were
2,950. In 1903 there were 3,000. In 1904
there were 3,050. In 1905 there were
3,100. In 1906 there were 3,150. In 1907
there were 3,200. In 1908 there were
3,250. In 1909 there were 3,300. In 1910
there were 3,350. In 1911 there were
3,400. In 1912 there were 3,450. In 1913
there were 3,500. In 1914 there were
3,550. In 1915 there were 3,600. In 1916
there were 3,650. In 1917 there were
3,700. In 1918 there were 3,750. In 1919
there were 3,800. In 1920 there were
3,850. In 1921 there were 3,900. In 1922
there were 3,950. In 1923 there were
4,000. In 1924 there were 4,050. In 1925
there were 4,100. In 1926 there were
4,150. In 1927 there were 4,200. In 1928
there were 4,250. In 1929 there were
4,300. In 1930 there were 4,350. In 1931
there were 4,400. In 1932 there were
4,450. In 1933 there were 4,500. In 1934
there were 4,550. In 1935 there were
4,600. In 1936 there were 4,650. In 1937
there were 4,700. In 1938 there were
4,750. In 1939 there were 4,800. In 1940
there were 4,850. In 1941 there were
4,900. In 1942 there were 4,950. In 1943
there were 5,000. In 1944 there were
5,050. In 1945 there were 5,100. In 1946
there were 5,150. In 1947 there were
5,200. In 1948 there were 5,250. In 1949
there were 5,300. In 1950 there were
5,350. In 1951 there were 5,400. In 1952
there were 5,450. In 1953 there were
5,500. In 1954 there were 5,550. In 1955
there were 5,600. In 1956 there were
5,650. In 1957 there were 5,700. In 1958
there were 5,750. In 1959 there were
5,800. In 1960 there were 5,850. In 1961
there were 5,900. In 1962 there were
5,950. In 1963 there were 6,000. In 1964
there were 6,050. In 1965 there were
6,100. In 1966 there were 6,150. In 1967
there were 6,200. In 1968 there were
6,250. In 1969 there were 6,300. In 1970
there were 6,350. In 1971 there were
6,400. In 1972 there were 6,450. In 1973
there were 6,500. In 1974 there were
6,550. In 1975 there were 6,600. In 1976
there were 6,650. In 1977 there were
6,700. In 1978 there were 6,750. In 1979
there were 6,800. In 1980 there were
6,850. In 1981 there were 6,900. In 1982
there were 6,950. In 1983 there were
7,000. In 1984 there were 7,050. In 1985
there were 7,100. In 1986 there were
7,150. In 1987 there were 7,200. In 1988
there were 7,250. In 1989 there were
7,300. In 1990 there were 7,350. In 1991
there were 7,400. In 1992 there were
7,450. In 1993 there were 7,500. In 1994
there were 7,550. In 1995 there were
7,600. In 1996 there were 7,650. In 1997
there were 7,700. In 1998 there were
7,750. In 1999 there were 7,800. In 2000
there were 7,850. In 2001 there were
7,900. In 2002 there were 7,950. In 2003
there were 8,000. In 2004 there were
8,050. In 2005 there were 8,100. In 2006
there were 8,150. In 2007 there were
8,200. In 2008 there were 8,250. In 2009
there were 8,300. In 2010 there were
8,350. In 2011 there were 8,400. In 2012
there were 8,450. In 2013 there were
8,500. In 2014 there were 8,550. In 2015
there were 8,600. In 2016 there were
8,650. In 2017 there were 8,700. In 2018
there were 8,750. In 2019 there were
8,800. In 2020 there were 8,850. In 2021
there were 8,900. In 2022 there were
8,950. In 2023 there were 9,000. In 2024
there were 9,050. In 2025 there were
9,100. In 2026 there were 9,150. In 2027
there were 9,200. In 2028 there were
9,250. In 2029 there were 9,300. In 2030
there were 9,350. In 2031 there were

The Banner.

L. HARPER, Editor and Proprietor
Official Paper of the County.

MOUNT VERNON, OHIO:
THURSDAY MORNING, NOV. 10, 1892.

It's Cleve and Steve!

Oh, wasn't it a landslide!

Oh, didn't we know 'em!

And still the Tariff is a tax.

Where is your McKinley now?

Tariff Reform has won the day.

McKINLEYISM is "dead as a doan."

VERILY, "there is a God in Israel."

CHARLES BALDWIN did it, says Sheriff Fowler.

BABY McKEE goes out and Baby Ruth comes in.

The People will now come in for a little "Protection."

The People, and not the Plutocrats, will rule this country!

This grand old Democratic party will live on as long as free government exists in this country.

THERE is nothing like it since 1852, when Franklin Pierce beat General Winfield Scott.

The People had no grudge against Gen. Harrison. It was McKinleyism they struck down.

OLD KNOX will resume her former station as one of the reliable Democratic counties in the State.

ARCHDUKE FRANCIS, of Austria, in his proposed journey around the world expects to reach this country in August next.

FRIENDS and fellow-countrymen, the discussion of the McKinley Robber Tariff will still go on, and don't you forget it.

SEVERAL millions of Republican money was lost on the result of Tuesday's election. And this is what makes the Democrats smile.

Oh, what a blessed thing it is that the excitement of another Presidential campaign is over. The people can now have a rest for four years more.

THE G. O. P. will now be seeking for a new name, under which to humbug and deceive the people. Probably Knox County Know Nothingism will be revived.

THE whaling bark, Helen Mae, Captain Thaxter, sunk in the Arctic ocean, Oct. 6, and thirty-five of the ship's crew found water graves. The vessel was crushed to splinters by ice.

THAT Maryland boy who burned over 1,000 acres of timberland to get a goose was not more foolish than are the American people to pay \$15,000,000 in taxes to get \$3,000,000 worth of tin.

THE poor old Republican party has lived out its life. It is dead and buried.

"When it lived it lived in clover, when it died it died all over, and that is why we shout for Grover."

A BIG strike has been inaugurated in New Orleans, and 63 Unions have gone out, because the employers refused to recognize unionism. The Typographical Union, however, refused to go out.

THE Chicago Herald charges that the Board of Administration of the Columbian Exposition is filling up Jackson Park with side shows, which pays the Board a special license, and which expect to charge special admission to their exhibits.

A CORROS seed oil mill and soap factory has been established at San Pedro, State of Coahuila, Mexico. The present output is stated to be 120,000 pounds weekly of common and toilet soap. The cotton seed used is from the Laguna district.

A SUBSCRIPTION to defray the expense of erecting a monument to the memory of Col. Elmer Ellsworth, the first union officer killed in the late war, has been started at Chicago. Edwin L. Brand headed the list with \$1,000. The project will be pushed to completion.

THE line of the Mexican Southern railroad reached Dazaca on the 22d of October, but the inauguration of this most important road will, on account of recent heavy rains, be postponed some ten days, instead of taking place on the 28th ult. as at first arranged.

WHITELAW REID, who ran for Vice President on the Republican ticket, subscribed \$70,000 to the Republican campaign fund, but to liquidate it he presented a bill of \$70,000 for political advertising in the New York Tribune during the campaign. A sharp man is Whitelaw Reid!

AT Wilmington, Ohio, Nov. 5, during the funeral of a diphtheria patient the corpse was carried to the church, and was hurled to the ground by the bursting of the coffin. During the confusion and excitement attending the accident, a horse ran away, fatally injuring Mrs. Elizabeth Roe.

THERE was a disastrous wreck on the B. & O. South-western, 8 miles from Chillicothe, on Friday. The third car, from the engine on a freight bogged down and twenty-one cars were piled on top of it. Wm. Chambers, front brakeman, was buried underneath three cars and crushed to death.

IN New York people are going about town, enquiring and coughing, in the grasp of their old enemy, the grip. Two fatal cases have already occurred, a woman of 74 years and a man of 24. Board of Health officials have even been attacked, but are striving to keep at work until after the election.

AT Guthrie, Indian Territory, two weeks ago the wife and baby of the postmaster disappeared. After an exhaustive search the head of the child and portions of the body of the mother were found in a panther's lair several miles in the woods. A posse has been organized to hunt down the beast.

LONDON has another sensational case in court—the parties belonging to the aristocracy of that wicked city. Mrs. Lieutenant General brought suit against Mrs. Major General Gibbons Smythe, for heavy damages, who charged her with stealing and then pawning a valuable brooch. There was some hard swearing in the case, and perjury is openly charged. The court room was filled with ladies during the trial, most of them being dressed in the height of fashion. Mrs. Leader secured a verdict of \$2,500.

A Political Avalanche!

CLEVELAND ELECTED

THE PEOPLE TRIUMPHANT!

Over McKinleyism, Monopoly,

Boodlesism, Bribery, Cor-

ruption, Oppression,

Tariff Robbery

and Political

Rascality.

America's Verdict at the Polls!

"Let the kettle in the trumpet speak: The cannon to the earth and earth to heaven." And the Democrats will sing—

"Praise God from whom all blessings flow, Praise Him all creatures here below."

We have the proud satisfaction this week of announcing to the readers of the BANNER the complete and overwhelming triumph of the National Democracy, and the consequent election of Grover Cleveland and Adlai Stevenson as President and Vice President of the United States.

The victory even surpasses the most sanguine anticipations of the Democracy, the majority in the great State of New York going ahead of the calculations of the National Committee, being about 35,000.

All honor to Senator Hill and the Tammany "Braves," who worked like "Tigers," and swept the State from the ocean to the lake, in the face of bribery, corruption and Davenport and Dave Martin's thugs and U. S. Marshals.

All the States were not heard from when our paper went to press on Wednesday afternoon, but enough is known to authorize us in saying that the Democratic triumph is the greatest and grandest ever witnessed in this country since Gen. Franklin Pierce defeated Gen. Winfield Scott in 1852.

The "Solid South" remains unbroken and with New York, New Jersey, Connecticut, Illinois and Indiana, which are conceded to the Democracy, without hearing from the doubtful States in the North-West and the Pacific Coast, the Democratic triumph is brilliant and unprecedented in history.

CONCEDED DEMOCRATIC STATES.

The Solid South..... 163

New York..... 35

New Jersey..... 10

Connecticut..... 6

Illinois..... 24

Indiana..... 15

Total..... 244

The Electoral College consists of 444 votes, a majority being 223. Cleveland has therefore a clear majority of 21, without counting any vote in Michigan and several other States.

The Democrats are claiming Wisconsin, which, if correct, will add 12 to the Cleveland column.

The indications are that Weaver has carried Kansas and Nevada.

Harrison and Reed, the "Hat and Rat" candidates, have carried a few States, but they run so far behind as to be lost out of sight.

Ohio is conceded to the Republicans; but the Democrats have elected two Congressmen in Republican districts—Harter in this (14th) district, over Johnson, and Tom L. Johnson, Cleveland, over O. J. Hodge.

Great as the Democratic surprise is in New York, here comes Illinois with one equally as great. The State has wheeled into the Democratic line, with a majority of from 5,000 to 10,000.

The big city of Chicago did the work, rolling up a majority of about 15,000.

The next Congress will be Democratic beyond the shadow of a doubt. The majority will probably be about 50. The indications are that the Senate will have an anti-Republican majority.

General Poock in Trouble.

Intense excitement has prevailed at Zanesville, Columbus and other places, during the past two weeks, growing out of a report of an improper intimacy between Adjutant General Poock and a Miss Rhodes of Zanesville, commencing at the time of the Grand Army Reunion at Washington and continuing at the late Columbian exercises in Chicago. Both parties claim that the attention shown by Gen. Poock to the lady on both occasions, was only what was due from a gentleman to a lady placed under his escort by her father, but the gossipers, whose tongues never cease wagging, insist that they made discoveries on both occasions that were of a character not consistent with purity and innocence; and a demand has been made that Gen. Poock's department should be investigated by those in authority. We have no opinion to express on the subject until all the facts are brought to light. Gen. Poock has heretofore stood high as an officer, and also in the private walks of life, and he and his friends claim that the charges against him originated with personal and political enemies.

Two people of Washington City, during the past week, were terribly alarmed by the terrific explosions of gunpowder, some of the shocks being so powerful as to shake every building in the city as if an earthquake had moved this little planet of ours. This unusual disturbance in the atmosphere was caused by experiments made under the authority of Uncle Jerry Rusk, of the Agricultural Department, who wished to ascertain if the explosion of gunpowder by the ton would break up the cloud and bring rain. The claim is made that it was attended with success and that an abundance of rain came soon after the fireworks. But old fashioned people will say that the rain of the past week came from the great west, and traveled eastward to the southeast, according to the laws of nature, without any regard to Uncle Jerry Rusk's waste of powder.

Two FIBRENS were fatally injured, one man was instantly killed and several trainmen seriously injured in a collision between the construction train and a regular freight train on the Rice tunnel on the Great Western Railroad, near Galena, Ill., on the 5th inst. The engine and cars were demolished.

DISHONEST REPUBLICAN METHODS

To Prevent Democratic Workmen from Voting on Tuesday.

A dispatch from Albany, N. Y., Nov. 7th, exposes a sharp Republican scheme that was nipped in the bud by Chairman Murphy, at Troy, that afternoon Albany and Troy, both Democratic strongholds, have been the objective points of Republican attacks for the past three weeks, but to day's raid was so bold and unexpected that it nearly succeeded. Early in the afternoon Bob Magee, an ex-convict, who is alleged to be in the employ of the Republican State Committee, was discovered scouring the docks and gathering in all the loafers and vagrants (prospective floaters at to-morrow's election) and offering to take them down the river on a moonlight excursion and clam-bake to-morrow, and bring them back at 10 a. m. to-morrow. Investigation showed that Magee had chartered the steam tender of the Citizens' Line Steamboat Company, provisioned it with 800 loaves of bread, ten kegs of beer and a quantity of sandwiches, until to-morrow night. His plan was to secure a boat load, about 300 men and steam down the river to a point from which it would be impossible to return to Troy before the polls closed. Magee was well supplied with money for his expenses, and was to receive \$5 for every man that he succeeded in dis-franchising.

The same dastardly work was practiced in Indiana. A special from Hammond, Ind., November 7, says: "The latest campaign trick is alleged to have been played upon fifty-four laborers of Detroit. They were brought to Hammond, Ind., upon the pretext that work would be given them. They reached the city Thursday and when the train stopped the man who piloted the party was missing. They were wholly without funds, and it was necessary to raise a purse to buy supper for the crowd. The men said that when they left Detroit they were to work on a railroad at New Peru, Ind. The man in charge had ticketed them all on one ticket, and individually they did not know they were to leave the train at Hammond. They were informed that that was their destination. The men are very indignant over their treatment. It is said that forty-seven of their number are Democrats."

DETROIT had an "old-fashioned" snow storm last Friday. It commenced raining down about 3 o'clock and continued for two hours, covering the earth, after which, the mercury dropped several degrees.

WHILE Colonel Strong was discoursing on the blessings of McKinleyism to the Wholesale Dry Goods Republican Club of New York, Wednesday night last, and remarking in triumphant tones, that "money is now cheap and plentiful," he was painfully crushed by a small boy in the crowd, who asked, in an exasperating treble:—"Where is it at?"

THE jury in the case of Iams vs. Coles, Hawkins and Streator and Surgeon Frim, at Pittsburgh, returned a verdict for the defendants. It will be remembered that Iams, who was a private soldier sent to Homestead during the late labor troubles there, made some pretty rough remarks about Mr. Frim when an attempt was made to assassinate him. For this he was suspended by the thumbs until he was well-nigh killed. For this barbarous, inhuman punishment he brought suit to recover damages. But an Allegheny county jury seemed to be of the opinion that the punishment was all right.

A NOVEL suit for damages has been commenced in the Washington (Pa.) county court. Four months ago Ira White and family moved to Washington and rented the house of J. M. Vansoy. It is alleged that the property was in a terribly foul condition. After living there a few weeks, Mrs. White and two children were attacked with typhoid fever, and all of them died. White now brings action to recover from Vansoy \$25,000 alleged damages sustained in the death of his wife and children.

OR all the silly talk of the Republicans during the late campaign, the "about wild-cat" money was the most senseless and idiotic; and yet, there were some people, who ought to know better, who seemed to believe it. If there is ever a "wild-cat" or debased currency in this country, (which we do not believe possible,) it will be the work of Republican sharks and robbers, who are ever ready to enrich themselves at the expense of the honest sons of toil. Remember what we say.

MESSES. MONROE & Co., bankers, who hold the Irish Paris fund, have written Mr. Justin McCarthy that they cannot part with the fund unless the tribunal of the Seine authorizes them to do so. No compromise between the two rival factions can free them from responsibility. The tribunal of the Seine may render no decision in the matter for some months.

EX-GOV. R. B. HAYES has accepted an invitation to deliver the address at the dedication of the Ohio Memorial Building at the World's Fair.

READING FOR FARMERS.

COST OF RAISING A WHEAT CROP.
The Eldorado, Kan., Times says, "W. Robinson has just completed threshing about 6,000 bushels of wheat from the shock, about one-third of his crop. His wheat makes from 15 to 35 bushels per acre. The last piece threshed, 63 acres, averaged 33 bushels of fine wheat, a quality not over grown in any country. The figures on this crop are interesting, showing that the net ground rent and profits from the land will pay for the land in two years at present value. The expense of an acre of this wheat (33 bushels) on board the car is figured thus:

Harvesting and sowing.....\$1.00
Seed, cutting, binding and shocking.....1.00
Threshing and putting on car......3.42

Total cost.....\$5.42
33 bushels, say at 60c, \$22.80 less cost \$7.12, net \$15.68 per acre. This is not so profitable as in '81-2 and 3 because wheat then sold for about \$1.00 per bushel—40 per cent more than now, and yet wheat was sold at the same price then as it is now.

It is estimated that in England improved roads have made it possible for three horses to do the work formerly done by four, thus saving \$100,000,000 annually. It is also stated that with improved roads the farm produce of Illinois could be hauled for \$15,000,000 per annum less than now, and that \$10,000,000 would be added to the value of the farms.

A FLEA FOR GOOD ROADS.
Professor Haupt says that a good average road, through a rolling country, should never cost more than \$7,000 per mile, and frequently not over \$2,000. And the expenditure pays. To pull one ton on macadam costs just one-half as much as on hard dirt, and one-fourth as much as on sand. It is estimated that in England improved roads have made it possible for three horses to do the work formerly done by four, thus saving \$100,000,000 annually. It is also stated that with improved roads the farm produce of Illinois could be hauled for \$15,000,000 per annum less than now, and that \$10,000,000 would be added to the value of the farms.

PROFITS IN SMALL FARMING.
A Massachusetts man raised last season on less than three acres of land, as follows: Fifteen bushels of green peas, 1 of white beans, 10 of potatoes, 8 of peaches (ears), 5 of red beets, 20 of onions, 75 of carrots, 800 sugar pumpkins, 1,000 winter squashes, 1,000 horse radishes, 60 dozen ears of sweet corn, 2,000 cabbages, 1,000 small parsnips, large quantities of sun flowers, 1 bushel of Rochester rose potatoes from one pound of seed. He says he has never there is big living from a small farm properly managed. A poultry raiser gives the year's results as follows:

He looks back at the year's work as follows: Nov. 1, 1891, 1 fed to 100 hens and 60 chickens, 120 bushels of corn, 20 bushels of oats and 20 bushels of wheat, a good part of the wheat was sold to the chickens. The profit over cost of food was \$131, an average of \$1.31 per hen; not a large profit, but eggs were low and not much of the hens were old. The eggs cost 7c per dozen for feed, but the whole cost of feed was taken, as I did not keep the feed-cost between the hens and chickens separate.

POTATOES.
The national department says that the acreage of potatoes is 94 per cent of the large area of last year. In the South, where the breadth of cotton has been shortened, a considerable increase in the area devoted to this crop has been made, but in the New England and Western States, where the largest yield is obtained and the bulk of the crop is grown, there is a considerable decrease. Planting was interfered with in the Central West by heavy rains, and there is considerable complaint of rotting of seed on account of the wet season. The unfavorable early season has influenced the planting of a larger late crop than usual. The condition of this crop is almost invariably high in July, as the vines are incident to its growth are me with later. The lowest ever before reported for July was in 1890, when it stood at 21.6.

EGGS FOR MARKET.
The United States market many millions of dollars worth of eggs every year. This fact strikes one as strange when we contemplate our facilities for producing all we can use. Our wood land and pastures can furnish the range for enough poultry to supply all Europe as well as ourselves, and that with no perceptible reduction of yield of grain, as insects would furnish a large share of the food. Another complaint of rotting of seed on account of the wet season. The unfavorable early season has influenced the planting of a larger late crop than usual. The condition of this crop is almost invariably high in July, as the vines are incident to its growth are me with later. The lowest ever before reported for July was in 1890, when it stood at 21.6.

THE NATIONAL DEPARTMENT says that the acreage of potatoes is 94 per cent of the large area of last year. In the South, where the breadth of cotton has been shortened, a considerable increase in the area devoted to this crop has been made, but in the New England and Western States, where the largest yield is obtained and the bulk of the crop is grown, there is a considerable decrease. Planting was interfered with in the Central West by heavy rains, and there is considerable complaint of rotting of seed on account of the wet season. The unfavorable early season has influenced the planting of a larger late crop than usual. The condition of this crop is almost invariably high in July, as the vines are incident to its growth are me with later. The lowest ever before reported for July was in 1890, when it stood at 21.6.

TO MAKE YOU SMILE.

Maud—How is it that you and your husband get along so well together? Violet—Oh, I never cook and he never takes politics.

Night Clerk—How does it seem to be a hotel waitress? New Girl—It seems as if I was made to order.

Dimity—Why did you leave the lecture platform, Larkie? Larkie—Well I was egged on to take that step.

Blobs—A good deal depends on your luck in poker. Wagles—Yes, but your luck also depends on a good deal.

Bride No. 1—No other woman ever wore this ring, did she, darling? Widow—No woman on earth ever had it on.

I have noticed, said the observant man, that the woman with a mole on her neck is usually dressed up to the mark.

Attalie—Did Cholly Bohman enjoy his vacation at the seaside? Amelia—No, but his friends in town did.

Didn't you think Miss Figg favored her brother to a wonderful degree? Not so much as she favors some other girl's brother.

It is when a young fellow in love has lost his head that the girl in the case is likely to mercifully lay her head on his shoulder.

An uptown shoemaker has a card in his window reading: "Any respectable man, woman or child can have a fit in this store."

Maud—Don't see why they call this a light opera. There's nothing very light about it. Toto—The costumes! I'm sure, are.

Perdita—Is he going to marry you, do you think? Penelope (dejectedly)—No, I don't think he will get any farther than that proposition.

The girl that marries for money usually has a look on her face after marriage that indicates that she is having trouble collecting her salary.

Jones—Smith is about your closest friend, isn't he? Borrow—Yes, confirmed him. It's almost impossible to borrow a cent from him.

Now matter what subject you talk on, my friend Bilkins has at his finger-tips. Is that so? Yes, his dear and dumb.

I should hate to have a mother-in-law always around, complained the youth, and then a gentle whisper fell upon his ear, "I am an orphan."

Where are you going? asked a little boy of another who he happened to fall on the ice pavement. Going to get up! was the blunt reply.

Jimmy Briggs—I wish my sister was a brother. A sister isn't so fun at all. Tommy—And if I'm a brother, I make my sister crying mad most every day.

Claverly—Oh, yes, of course, she's pretty but she's not so well! Waverly—Well, that's better than being ugly and not knowing it, you know.

Three days of grace—The time usually allowed the bridegroom before the bride asserts herself.

My dear husband: Does it not seem to you, my dear, that our guests depart very much earlier than they should?

She confesses to some twenty odd years. I believe. Of course there are an equal number of even ones included.

It would probably be hard to convince a band leader that the crowing of a rooster has a good deal to do with making the sunrise.

How is that for a show bill? exclaimed Jason, the printer, as he displayed a millinery firm's demand for \$17 for his wife's last bonnet.

That wall paper has a very cold look, said a customer to a dealer. Well, you see it was intended for a frieze, was the dealer's reply.

Many New Ideas.
In the home care of diseases, accidents, and how to treat them, and many hints of value to the sick will be found in Dr. Kaufmann's great Medical work; elegant illustrations. Send three 2-cent stamps to A. P. Ordway & Co., Boston, Mass., and receive a copy free.

There was a terrific explosion at the nitro-glycerine factory of the High Explosive Company, near Lima, on Friday. The factory was blown to atoms, and one man was killed and many badly injured.

To Young Mothers.
Who are for the first time to undergo woman's severest trial, we offer you not the stupid caused by chloroform, with risk of death for yourself or your dear-bred and long-for offspring, but "Mother's Friend," a remedy which will, if used as directed, invariably alleviate the pains, horrors and risks of labor. Sold by G. R. Baker & Son.

I HAVE TAKEN SEVERAL bottles of Bradford's Female Regulator for falling of the womb and other diseases combined of 16 years standing, and I really believe I am cured entirely, for which please accept my thanks. Mrs. W. E. Stebbins, Ridge, Ga. Sold by G. R. Baker & Son.

A bloody duel was fought with knives by two men who were rivals for the hand of a widow, to whom they were engaged, at Gold Hill, Idaho. Both men were out to pieces.

Sentinel Gorman, who has usually entertained a good deal at his home on Rhode Island avenue in Washington in the winter time, will not re-open the house this coming season, but occupy apartments in a hotel, the Portland.

A Million Friends.
A friend in need is a friend indeed, and not less than one million people have found just such a friend in Dr. King's New Discovery for Consumption, Coughs and Colds. If you have never used this great cure, medicine, one trial will convince you of its wonderful curative powers in all diseases of Throat, Chest and Lungs. Each bottle is guaranteed to do that is claimed or money will be refunded. Try it today. Free at George R. Baker & Son's drug store. Large bottles 50 cents and \$1.

ALL SORTS.

The ostrich is the swiftest live thing that runs. Paper boats are extensively made in Germany. Sufferers from gout rarely suffer from other maladies.

Laplanders often skate a distance of 150 miles a day. Turkish is the softest toned of modern languages.

The fruit of the nutmeg tree takes nine months to mature. Fish, flies and caterpillars may be frozen solid and still retain life.

Two-fifth of the companies started yearly in England are failures. In 1760, 15,000 pounds of cocoons were grown in South Georgia.

There are now in this country 385 electric roads with 3,980 miles of line. Rum is made from the refuse of sugar. The best comes from the West Indies.

Tongolian pheasants are being killed by hundreds in Lane county, Oregon. The original declaration of independence is in the state department at Washington.

It is calculated that there is property valued at \$50,000,000 at the bottom of the Atlantic. New York has the greatest number of newspapers, namely, 1,508; Nevada, the least, namely, 25.

The Egyptians and Phoenicians are joint claimants for the honor of the invention of water craft. A Californian has produced for assay a piece of gold-bearing rock which he claims is a drummer plant.

Potatoes claimed to weigh three pounds are among the products of Asotin county, Washington. Bees never store honey in the light because honey so exposed granulates and is thus useless to the bees.

A Kansas City farming implement house intends sending out a young woman as a drummer next year. The Austrians consume more tobacco than any other nationality or race on the globe, civilized or savage.

India has one missionary to 275,000 people. Persia has one missionary to 300,000, and Tibet one to 2,000,000. The Pope in 1180 preached the cross-law as barbarous and threatened cross-laws with excommunication.

Nineveh, the ancient city, was 14 miles long and 8 miles wide, surrounded by a wall 100 feet high and 20 feet wide. Sherman, Tex., has a \$300,000 jail with ten prisoners lately escaped by sawing through iron bars with a 35-cent file.

An Indian on the Grand Ronde reservation, in Oregon, is claimed to be the only Indian in that State that draws a pension. The amount on deposit with savings banks in 1891 equaled \$1,054,824; of these, investments and cash on hand, \$1,024,824.

Puget Sound oysters are sometimes as much as 2 1/2 feet long and 20 to 25 in broad, and weigh, exclusive of shell, from 40 to 60 pounds. Neither more than 60 persons in every 100 in London are living in comfort, while rather more than 80 in every 100 are living in poverty.

In 1890 we produced 60,000 tons of paper, in 1891, 200,000 tons, or 120,000 tons more than total production of European paper mills. An ingenious Indian has invented a pump in which an auger or screw mold board is operated by means of a drive wheel in the rear.

The Car's personal expenses are \$90,000 a year, which is \$6,000,000 more than Russia's annual appropriation for common schools. Testing the big Krupp guns is said to be responsible for the cracking of every brick and stone house in Essen, the seat of the great armory.

At Dundun, Australia, there is a blue gum tree which has an estimated height of 450 feet. It is believed to be the tallest tree in the world. A negro digging on his farm in Liberty county, Ga., recently found an iron pot containing \$4,000 in old French and Spanish gold coins.

Porphyry holders, which greatly resemble watermelon in size, shape and color, are to be found in the Cascade Mountains East of Roseburg, Ore. The highest lakes in the world are in the Himalayas, in Tibet, where there are some bodies of water as high as 20,000 feet above the level of the sea.

The largest and oldest chestnut tree in the world stands at the foot of Mount Etna. It is 213 feet in circumference, and is known to be at least 2,000 years old.

At York, Pa., in the orchard of Simon Muehler, there is a tree that annually bears a crop of three different kinds of fruit: Pears, peaches and apples. The moth has a fur jacket and the butterfly none because the nocturnal habits of the moth require it. The diurnal movements of the butterfly do not.

The barroom of a hotel at Bordentown, N. J., is decorated with a pair of elegant chandeliers that were brought from Spain by Joseph Bonaparte. A footpad was lately captured in a Hungarian town, and with him a bear that he had tamed and taught to grapple with pedestrians whom he desired to rob.

Children Cry for Pitcher's Castoria.
At the head of the Gulf of Bothnia there is a mountain, on the summit of which the sun shines perpetually
